NOTE: Emails are sent from noreply@notify.thinkific.com or notifications@notify.thinkific.com <u>Please add them to your</u> address book to ensure you receive all communication.

Troubleshooting Steps: Do you have more than one email address? Make sure you are using the correct email address. The one associated with your Thinkific account is the one you entered on your application (verify on your confirmation email like the one shown in #1 above).

Search your inbox and spam folders for these email addresses: noreply@notify.thinkific.com or notifications@notify.thinkific.com

If these emails routinely end up in spam, consider adding these email addresses to the <u>safe sender list in your email</u> <u>service provider settings</u> (e.g. Outlook, Gmail).

3. Click on "You can click here to set your password." within the email.

4. It will bring you to a screen that looks like this, where you will set your password and confirm your password.
